AMENDMENT

SIR:

In response to the Office Action of January 3, 2003, kindly amend the above-captioned application as follows:

IN THE CLAIMS

Please amend claims 14, 22 and 25 without prejudice as follows:

Subj
C
14. (Amended) An emission control system, comprising:
a particle filter; and
an arrangement disposed upstream from the particle filter and configured to at least reduce clogging of the particle filter by prevention of development of ash upstream from the particle filter by one of transformation and maintenance of at least one of the compounds responsible for ash formation in the gaseous state, the arrangement including:

Subj
a device configured to collect at least a portion of the ash-forming compounds of sulfur contained in the exhaust gas; and
a device configured to convert the collected ash-forming compounds of sulfur into gaseous compounds of sulfur that do not form ash.

C2
22. (Amended) A method for operating an emission control system including a particle filter and an arrangement disposed upstream from the filter and configured
